

# GENTLE ROLL™

## Grain Cleaner The Grain Screening Solution

The Gentle Roll™ grain screener efficiently and effectively screens grain to remove fines and overs. Unlike other screeners, the Gentle Roll™ gently moves grain through a non-vibrating, rotary system to economically remove foreign material.

Because every facility is different, each Gentle Roll™ is distinctively designed for the individual customer's specific needs.

The non-vibrating Gentle Roll™ is easy to install inside, outside, or on top of a building or structure. Each screener is fully enclosed to provide dust control and weather proofing, built to run continuously, and uses only the highest quality materials.

You can increase your overall grain quality, while reducing maintenance costs with the Gentle Roll™.

### Does your company have a unique product?

Send us a sample and we will test it for FREE in our lab to determine the best configuration for screening efficiency.

## Grain Cleaner

### The Only Screener to Clean Grain Efficiently and Reliably

Screen configurations, ranging from one to five, are determined by the end goal and application. Inspecting and changing a Gentle Roll™ screen is quick and easy and can be completed by one person in a matter of minutes.

Common screen configurations include:

- Fine Particle Removal: 1-3 Screens
- Scalping: 2 Screens
- Fine Particle Removal and Scalping: 4-5 Screens (2-3 to remove fines and 2 to scalp)
- Sizing: 1-5 Screens depending upon the application and goal

The rotary-drum design of the Gentle Roll™ allows the product to gently move through the system without damage.

#### Available Capacities Example:

	Bu/Hr	Tons/Hr
<b>1 Drum</b>	1,500	43
<b>2 Drums</b>	3,000	86
<b>4 Drums</b>	6,000	171
<b>6 Drums</b>	9,000	256
<b>8 Drums</b>	12,000	324
<b>10 Drums</b>	15,000	428

The above chart is based on dry, good flowing product, with a bulk density of 45lbs/ft<sup>3</sup> or 720 kg/m<sup>3</sup>.

You can gain a competitive edge in the grain industry by making your product quality stand out. The time-proven reliability and quality of the Gentle Roll™ make it the perfect solution for all your grain screening needs.
